° Two areas of particular DoD interest: training and polygraph.

A. Training - In 1975, at the request of DoD, we agreed to furnish HUMINT training to selected DoD civilian and military personnel on a reimbursable basis (based on an MOU which is revised annually).

1. Two primary training courses

2. Two other courses offered

- a. Military Operations Seminar (MOS) - Designed to update skills of experienced operations officers--three weeks' duration.
- b. Military Operations Familiarization Course (MOFC) - Designed for DoD personnel who have managerial roles in clandestine operations.

The program is managed by CIA; Army, Air Force, and Marine Corps participate along with other DoD personnel. Entails close cooperation and coordination with DIA, Defense Intelligence School, Department of the Army, etc. The courses are taught by eight CIA officers and seven DoD officers who are assigned to the Military Operations Training Branch along with four clericals. 

STAT

3. Potential problems: DIA would like CIA to increase the military attache training course from two to three or more runnings while maintaining the schedule for all other military training courses. Because of resource constraints we cannot accede to DIA's request.
